

ACCESS

SLT TRAINING

What does the Access department do?

We are an autonomous department, representing students with disabilities and those who fulfil caring roles.

Why is Access training important?

It's guaranteed to increase attendance at your events!

Today you'll learn:

- How to make your events more accessible
- Ensuring your marketing is easy-to-read
- Helping your attendees feel more comfortable

Consider these when planning your events:

- ☐ Is the venue *accessible* to people of all abilities?
- ☐ Advertising the key accessible features of the venue (i.e. transport options, entry, etc.)
- ☐ Clearly *labelling dishes* with included ingredients

Find resources and further information on the next page!

ACCESS

SLT TRAINING

During your event:

- ☐ Allowing for breaks
- ☐ Including captions for visual media
- ☐ Using inclusive language

How can we help you make your events more accessible?

- Provide suggestions on how to improve accessibility
- Assist with providing resources (see *below!*) to assist in creating an accessible event.

RESOURCES

Accessible Events Guide

Provides a list of what to consider when planning your event!

Disability Awareness Training

Free training that should take under 2 hours to complete (you receive a certificate by the end!)

If you have any questions or suggestions, contact us!
